GANNET SAFARIS

- OVERLAND -

CAPE KIDNAPPERS

HAWKE'S BAY - NEW ZEALAND

THE SAFARI

No walking required, Gannet Safaris is the only way to be driven right to the Colony. Our 4-wheel drive coaches take you through riverbeds up to broad terrace pastures overlooking steep ravines. A stop on the clifftops shows the remarkable geology of the cliffs and sweeping views of Hawkes Bay.

The 3 hour round trip includes a commentary by your guide on the extraordinary life of the Gannet and the story of the sheep station.

DAILY TOURS

Departures: 9.30am and 1.30pm

September 1st to April 30th (excluding Christmas Day)

Duration: 3 hours from our base at Te Awanga
(add one hour for ex Napier/Hastings return option)
Morning/Afternoon tea/coffee provided.

Times are subject to change.

GROUP TOURS

These are available on request.

RANGE ROVER TOURS

Your own personal encounter with the birds anytime from sunrise to sunset.

Further options available including a custom made day visiting Hawkes Bay attractions.

PRICES

From \$88 Adult, \$44 Child.

Visit our website: www.gannetsafaris.co.nz
and book online

Or phone us: +64 6 875 0888

GETTING THERE

From Napier head south towards Clive. On leaving Clive, follow the signs to Cape Kidnappers and Te Awanga. Once through Te Awanga, cross the small bridge, you will see Gannet Safaris Overland to your right. Driving time from Napier approx. 30 minutes.

THE STATION

Cape Kidnappers Station is approximately 2,500 hectares and has a fascinating history. In addition to sheep and beef farming, the station today has a 200 hectare native bush conservatory hosting introduced Kiwi and Tuatara, a predator proof fence running from coast to coast and a luxury lodge with a privately owned world class golf course.

Visitors can view first hand and ask questions about the unique development of Cape Kidnappers.

THE GANNETS

Cape Kidnappers is the largest accessible mainland colony in the world. Members of the Booby family, there are over 15,000 Gannets which have beautiful eye markings and a golden crown.

Visitors to the colony will be within a few feet of adults and chicks nesting, preening themselves and performing their courtship dance.
