BOOKINGS ARE ESSENTIAL

Getting there:

Follow the signs 'Cape Kidnappers' from Clive to Te Awanga. Once through Te Awanga village, cross the bridge and within 100m the Gannet Safaris sign and entrance is on the right.

(Satnav: 396 Clifton Road, Te Awanga)

THE GANNETS

Cape Kidnappers is the largest and most spectacular mainland nesting place of gannets in the world. The 20,000 gannets are members of the Booby family with distinctive black eye markings and a pale gold crown. Visitors to the colony will see adults and young nesting in serried rows. In the

air birds swoop and dive as they bring back fish. On the ground, the pairs preen and perform the dance of the gannets' recognition ritual.

THE SAFARI

Gannet Safari has been guiding visitors over Cape Kidnappers to the gannets for over 30 years. The only way of being driven right to within a few feet of these remarkable birds – there is NO WALKING required.

The coach traverses riverbeds, broad rolling pastures, through

stands of native bush, steep gullies and breathtaking inclines. There is a stop on the way at a spectacular cliff top with panoramic views of Hawke's Bay right to Mahia Peninsula. The amazing geology of the area can also be taken in. The 3 hour trip includes a commentary by the tour guide on the farming operation on Cape Kidnappers and an introduction to the gannets.

THE STATION

Cape Kidnappers Station is a rugged coastal property of over 2000 hectares (5000 acres) with ocean boundaries on two sides. Activities include sheep and beef cattle. Commercial forestry is developing into an integral part of the station's

turnover. Visitors can view and ask questions about the ongoing development on Cape Kidnappers.
